PROJECT

Ticket Registration

Built using HTML, CSS, Bootstrap,, and Angular to deliver a responsive and interactive user interface.

Student Registration Form

Developed a responsive student registration form using HTML, CSS, JavaScript, and Bootstrap

Online House Hold Service

"Online Household Services" is a web-based platform that connects users with reliable household service providers like plumbers, electricians, and cleaners. It allows customers to book services, track appointments, and provide feedback. The project aims to simplify daily chores through a convenient and efficient online solution. Technologies Used in this project are Java, JSP, HTML, CSS, Bootstrap, MySQL, NetBeans, Postman.
